Objective

Highly motivated Computer Science and Engineering student with strong expertise and interest in AI, Robotics, Embedded and IoT systems. Passionate about solving real-world problems through modern technology and contributing to impactful research projects and Printed Circuit board (PCB)designs. I have done many basic and advanced projects with Arduino, ESP32, ESP8266, Raspberry Pi microcontrollers. And I have also achieved good results in various tech competitions, such as Line Following Robot, Project Showcasing, segment's etc. Moreover, I have worked as a volunteer and team leader in two organizations for 3 years, such as BdOSN, Bangladesh Junior Science Olympiad, etc. Moreover, I am working as a robotics mentor for children in an organization.

Education

2025 B.Sc. Computer Science and Engineering
Dhaka International University
Final Year (11th Semester) CGPA:
3.62 out of 4.00

2021 Higher Secondary Certificate (HSC)
Jashore Govt. Collage , Jashore
GPA: 4.50

2019 Secondary School Certificate (SSC)
Baramanika High School, Joypurhat
GPA: 4.61

Skills

Programming: C, C++, Java, Python
Frontend: HTML, CSS
Database: MySQL
AI and ML: NLP, Fuzzy Control System
Tools: Git&Github,VS code, Google Colab , Arduino, Proteus, EasyEDA, Wokwi, Tinkercad, Cirkit Designer
Soft Skills: Problem-Solving, Teamwork, Leadership

Project

1. **NASA Space Apps Challenge 2025 – Light Pollution Prediction System (Lumiless)**
   - Developed ML-based environmental prediction system using Random Forest and Multi-regressor model
   - Integrated Hugging Face Mistral LLM for intelligent insights and recommendations
   - Designed Backend with Django REST Framework for real-time API handling and visualization

❷ **Raspberry Pi Voice Assistant (2025)**

- Developed an intelligent offline voice assistant system using Raspberry Pi 5 and Python, integrating Natural Language Processing (NLP) and a fuzzy logic model to enhance speech understanding and response accuracy.
- Implemented real-time speech recognition and text-to-speech functionalities for bilingual (Bangla–English) interaction.
- Designed and deployed the system for hands-free automation and IoT device control as part of a university research demonstration.

❸ **Mars Rover Prototype (2024)**

- Built a Mars Rover Prototype with Arduino and rocker-bogie six-wheeler frame for stable navigation.
- Integrated Humidity and Temperature sensor (DHT11), Sound sensor, Sonar sensor (HC-SR04) and OLED display for real-time environmental monitoring.
- Implemented motor control and sensor feedback for interactive operation.

Achievement

- **Computer Programming Club (CPC),** Vice-President (Current)
- **DIU Robotics Club (DIURC),** Convenor (Current)
- **TechnoCrats V.2,** 15 place among 70 team on Line Following segments
- **Misson-Controller, Space Innovation Camp (2023- Present)**
- **Honorable Judge, National Science Fest-2025 –** Organized by Phulkuri Asar
- **NASA Space App Challenge 2025 Participator** – Team Lead, data collector, analyzer

Personal Details

Father's Name	: Md. Nazrul Islam
Mother's Name	: Nazrana Begum
Date of Birth	: 4th July, 2002
National ID No	:6910770004
Religion	: Islam
Present Address	:Vatara, Sayed Nagar, Dhaka 1212
Permanent Address	: Boro Baliyatoir, Dhalaher, Joypurhat
